JOINT DEPLOYMENT

Program of study with emphasis on JOPES and the Joint Deployment Process

The Joint Deployment program of study provides members of the Joint Planning and Execution Community, Joint Professional Military Education institutions and combatant commands conducting joint exercises, with relevant functional training, education, and support on the Joint Operational Planning and Execution System (JOPES) and the joint deployment process.

Students receive instruction from veteran JOPES subject matter experts on tools that allow them to deploy and re-deploy joint forces, equipment and supplies around the globe.

Joint Deployment Courses and Briefs

[JOPES Functional Manager Course](#)

TRAINING VENUE OPTIONS

- Resident Training (RT) – Hands-on instruction at JDTC on Fort Eustis, VA
- Mobile Training Team (MTT) – Customer Requested Instruction/Support at worldwide locations
- Distributed Learning (DL) – Self-paced instruction through Joint Knowledge Online (JKO) and Instructor-led instruction using Microsoft Teams

CUSTOMER REQUESTED INSTRUCTION/CUSTOMER REQUESTED SUPPORT (CRI/CRS)

Upon government request, JDTC can provide tailored instruction, subject matter expert (SME) support, and over-the-shoulder training customized to your organization's training needs or schedule. Training can be provided to organizations at their home stations or in theater for short notice deployments or exercise requirements. To request a CRI or CRS, visit <https://www.jdtc.eustis.army.mil/CR>.

REGISTRATION

To register for a resident training class or request an MTT, visit the JDTC website at <https://www.jdtc.eustis.army.mil> or contact the registrar at js.pentagon.j7.mdx.jdtc-registrar@mail.mil.

JOPES Executive Presentation (JEP)

JD2301

Objective

JEP provides senior military and civilian personnel with an understanding of the purpose of JOPES and Global Force Management (GFM), its processes, and components. Upon request, demonstrations of the JOPES Editing Tool (JET), and Rapid Query Tool (RQT) can be added to the presentation.

Prerequisites

Final U.S. SECRET clearance **only** if JOPES application demonstrations are requested as a part of the presentation. The standalone presentation is unclassified.

Recommended Participants

Senior leader military and civilian personnel in the Joint Planning & Execution Community (JPEC).

Major Topics

- Joint Planning and Execution Community (JPEC)
- Doctrine and guidance used in support of Joint Planning and Execution
- Contingency and Crisis Planning
- Global Command and Control System-Joint (GCCS-J) communications
- Information technology applications
- Time-phased force deployment data (TPFDD)
- Joint Planning and GFM Overview

Length: 1.5 hours - up to 4 hours with JET/RQT/JCRM demonstrations

Tools & Applications:

- NIPRNET web access with Microsoft Edge or Google Chrome
- Joint Knowledge Online (JKO) account

Training Venues

- Resident Training (RT) - Hands-on instruction at JDTC on Fort Eustis, VA
- Mobile Training Team (MTT) - Customer Requested Instruction/Support at unit location

Registration

To register for a resident training class or request an MTT, visit the JDTC website on the NIPRNET at <https://www.jdtc.eustis.army.mil> or contact the registrar at js.pentagon.j7.mbx.jdtc-registrar@mail.mil.

Joint Planning and Execution Services Overview (JOV)

JD1101

Objective

Provides joint personnel with an overview of JOPES foundational elements to include driving policies, procedures, and personnel with a primary focus on the GCCS-J programs designed to support the JOPES process.

Prerequisites: None

Recommended Participants

Military or civilian personnel at all levels who perform JOPES duties, and anyone preparing to take the JOPES Support Personnel Course (JD1102).

Major Topics

- Joint Planning and Execution Community (JPEC)
- Contingency and Crisis Planning
- JOPES Architecture and Web Sites
- Newsgroups
- Joint planning terminology
- Time-phased force and deployment data (TPFDD)
- Joint Publications and Guidance

Length: 2 hours

Tools & Applications

- NIPRNET web access with Microsoft Edge or Google Chrome
- Joint Knowledge Online (JKO) account

Training Venue

Distributed Learning (DL) - Self paced online through JKO course number JDTC-JD1101 at <https://jkodirect.jten.mil>.

JOPES Support Personnel Course (JSPC)

JD1102

Objective

Provides joint operations personnel who support the joint deployment process with extensive hands-on instruction on procedures, applications, time-phased force deployment data (TPFDD) guidance, development, validation, and deployment execution utilizing JET and RQT.

Prerequisites

- JDTC-JD1101
- Final U.S. SECRET clearance

Recommended Participants

Command level military and civilian Joint Planning and Execution Community (JPEC) members.

Major Topics

- Joint Operational Planning and Execution System (JOPES) and joint planning process
- TPFDD build, edit, and source requirements
- TPFDD queries and reports
- TPFDD validation and movement scheduling process

Joint Qualified Officer (JQO) point value: 1

Personnel Data System (PDS) code: JOF

Length: 5 days (RT); 2 weeks (DL - may be tailored to student needs)

Tools & Applications

- SIPRNET web access with Microsoft Edge or Google Chrome
- JOPES Editing Tool (JET)
- Rapid Query Tool (RQT)
- Mozilla Thunderbird

Training Venues

- Resident Training (RT) - Hands-on instruction at JDTC on Fort Eustis, VA
- Mobile Training Team (MTT) - Customer Requested Instruction/Support at unit location
- Distributed Learning (DL) - Blended course comprised of self-paced and instructor-led online instruction via JKO and Microsoft Teams

Registration

To register for a resident training class or request an MTT, visit the JDTC website at <http://www.jdtc.eustis.army.mil> or contact the registrar at js.pentagon.j7.mbx.jdtc-registrar@mail.mil.

Joint Deployment Actions Officer Course (JAOC)

JD2101

Objective

Provides joint personnel with extensive hands-on instruction covering command relationships, joint operational planning, adaptive planning, global force management, roles and responsibilities of action officers/planners, and Joint Operational Planning and Execution System (JOPES) guidance.

Prerequisites

- JD 1102 - JOPES Support Personnel Course (JSPC)
- Final U.S. SECRET clearance

Recommended Participants

Action officers, senior enlisted personnel, and civilian personnel involved in planning and executing joint operations and exercises, supervising personnel who use JOPES applications, and those advising and assisting senior decision-makers on JOPES processes and applications.

Major Topics

- Joint Planning and Guidance
- Action Officer/Planner duties
- In-Transit Visibility
- TPFDD Error Checking and Correcting
- Joint Reception, Staging, Onward Movement, and Integration
- TPFDD Validation and Movement
- Support Planning
- Force Tracking
- TPFDD Editing and Review

Joint Qualified Officer (JQO) point value: 1

Personnel Data System (PDS) code: JOA

Length: 5 days

Tools & Applications

- SIPRNET web access with Microsoft Edge or Google Chrome
- JOPES Editing Tool (JET)

JOPES Functional Manager Course (JOPES-FM)

JD3101

Objective

Provides JOPES functional managers with hands-on instruction in supporting and managing the JOPES database and user accounts.

Prerequisites

- JD1102
- Final U.S. SECRET clearance
- Recommendation from combatant command or subordinate JOPES Functional Manager

Recommended Participants

Military and civilian personnel at all levels who perform JOPES Functional Manager duties.

Major Topics

- JOPES Permissions (JPERMS)
- TPFDD Management Tool (TMT)
- JOPES Synchronization Processor (JSP)
- JOPES Information Technology (JIT)
- JOPES Editing Tool (JET)
- Auditing via Rapid Query Tool (RQT)
- Logbook
