OVERVIEW

- The Warrior Readiness Site (WRS), an educational portal on JKO-SIPR, focuses on improving Joint Force understanding of the Changing Character of War.
- The WRS is a “living” site with ever-changing content derived from classified and unclassified sources and aligned into five learning areas: Joint Warfighting Concept 3.0 (JWC 3.0), The Changing Character of War, Understanding the Adversary, Educating the Force, and a Resources area with service concepts and strategic-level guidance documents.
- The WRS hosts a 5-module video course on the “Joint Warfighting Concept Context and Origin” and a 7-module program on “The Changing Character of War.”
- The JWC is a global concept that describes operational approach to defending the U.S., our allies and partners in future conflict, thereby defeating great power adversaries.
- The site provides educational content to establish an understanding of current and future military conflict for all ages and ranks, regardless of experience.
